

Photo Instructions

creating the photos.

Take note:

Please take photos before sending back the trial saddle to la selle. Please follow the instructions precisely.

Without these photos it will not be possible to assess the correct fitting.

1. The horse should stand on a hard even surface.
2. You should have no numnah or pad under the saddle.
Do not lay the saddle on the shoulder. It must be positioned slightly behind the shoulder.
3. The mane on the withers should not cover the pommel.
4. The hands should not block the view of the withers.
5. The girth should be fixed evenly. If the horse is a bit heavy in the stomach area, fasten the front strap of the girth tighter.
